

CLASS A**PART ONE****READING**

Read the text and do the exercises that follow.

Sasha is 13 years old. She goes to the high school near her house. It's a five-minute walk. Her school is neither big nor small either. Sasha is in year 1. There are about 20 students in her class. They start school at 7:45 a.m. and finish at 2:10. They've got seven subjects every day which last 50 minutes each. After every two lessons they have a break. The first break is 10 minutes, the second one is 20 minutes and the last one is only 5 minutes.

In year 1 they study 13 subjects. Her favourite one is Maths. She's really good at it. She also likes History, English, Geography and P.E. but she's not too excited about French, ICT and Music. She thinks these lessons are boring.

Sasha loves her school because they've got many clubs which begin at 2:15. They do sports (basketball, volleyball, and tennis), music and dancing. Each student must choose at least one activity to do after school. Sasha likes sports so she plays basketball and volleyball. She is very good at both of them, so she also plays for the school team too.

Write true (T) or false (F).
